

THE FOLLOWING PERMANENT IMPROVEMENT PROJECTS WERE

COMPLETED 2008-2009:

High School:

- Auxiliary gym floor repaired and refinished
- Replaced old moveable walls between classrooms 112 and 114, 143 and 145 with block. Will enhance use and aid teachers by minimizing sound issues between rooms.
- Roof replacement project - approximately 15,000 sq ft. Part of on-going roof replacement / repair cycle to maintain building envelope and protect District assets.
- Restroom stall partition replacement – old, rusty partitions replaced
- Weight room floor replacement – old floor was buckling and deteriorating. Was unsafe for student use.
- Parking lot repairs completed
- Classroom furniture additions (student desks)
- Copier replacement
- Band instrument replacement

Middle School:

- Main gym floor sanded, refinished and lines repainted
- Gym bleachers motorized
- Restroom stall partition replacement – old, rusty partitions replaced
- Storm drain installed – east parking lot
- Permanent fencing installed – entrance to stadium
- Cafeteria chair replacement (partial)
- Band instrument replacement

Ledgeview:

- Multipurpose room floor tile replaced
- Camera monitor installed – main office
- Parking lot repairs completed
- Damaged sidewalk replacement
- Copier replacement

Rushwood:

- Clusters B & C carpet replaced
- Roof replacement project – approximately 8,300 sq ft. Part of on-going roof replacement / repair cycle to maintain building envelope and protect District assets.
- Damaged sidewalk replacement
- Restroom stall partition replacement – old, rusty partitions replaced
- Parking lot repairs completed
- Copier replacement

Northfield:

- Multipurpose room and classroom 108B floor tile replaced
- Added access control proximity reader (kindergarten/Champion entrance)
- Parking lot repairs completed

Lee Eaton:

- Special needs “time out room” built
- Chimney tuck point completed
- Front center façade of building repainted
- 3 additional PA speakers installed
- Parking lot repairs completed
- Copier replacement

Transportation

- Additional cameras added to buses
- Waste Oil Furnace installed in mechanics bay. Reduces natural gas usage in garage.
