

Asbestos Management Plan Notification The US EPA published their AHERA (Asbestos Hazard Emergency Response Act) Regulations in 1986. These regulations require all local education agencies (LEA's) to have their buildings inspected for asbestos-containing building materials (ACBM), to have a written Asbestos Management Plan created, and to institute an Asbestos Operations and Maintenance (O&M) Program to train in-house personnel how to properly manage and work around the ACBM in their buildings. This posting serves as the annual notification which is required to be sent to all school district employees, parents, groups and organizations to explain the Management Plans and any current relevant activities. The Management Plan is available for inspection in all occupied school buildings and the Board Offices, 9370 Olde Eight Road, Northfield, OH 44067. The purpose of this Annual Notification is to explain the status and availability of the Asbestos Management Plan, to review recent asbestos-related activities in the school district, and to list the asbestos-related activities that are planned to take place in the upcoming calendar year. There are no recent or planned activities for the upcoming school year.
