APPLICATION DAY

When: Wednesday, February 21st

Where: Support Services Office

Time: ADVISORY through 4C

- Already know that a 2-year school is the path you need or want to follow to get started in your career?
- Already applied to 4-year schools but want to keep the option open to start at a community college (reduced tuition, smoother transition, career options)?
- Attending a 4-year college/university but want the option of taking classes when you're home during the summer after your freshman year of college?

Then stop in & fill out an application!

Stop in during your study hall (with a pass from your teacher) or lunch, it will only take about 10 minutes as long as you have your:

- Chromebook
- Social Security #
- Non-school email address
- DOB (Date of Birth)

It is non-binding (no commitment to attend if you change your mind) but gives you another option and paves the way for a seamless transition to your education beyond high school.

If you do not have a study hall during those times and would still like to apply for free, please ask your teacher for a pass from a non-academic class.

We will send you back to class with a pass!

Scholarship/Financial Aid Resources

FAFSA (Free Application for Federal Student Aid)

All students/families should fill out the FAFSA (even if you don't think you'll qualify for grants) as soon as possible after it becomes available in **December this year**. You need to fill out the FAFSA to be eligible for federal financial aid but also, some schools require you to have a FAFSA on file just to receive their scholarships. Also, you never know when your financial situation may change between now and when you start college. It is best to have this application on file just in case.

On or as soon as possible in December, go to: fafsa.gov

If you need assistance, you may contact the Financial Aid Dept. at any college/university you are applying to. Also, plan on attending the info. meeting at NHS Monday, November 6th.

CSS Profile

Some colleges and universities use the CSS Profile to award financial aid. This is an online application used by colleges, universities and scholarship programs to award non-federal financial aid such as grants and scholarships. The CSS Profile is a separate application from the FAFSA and should be completed in addition to the FAFSA not in place of the FAFSA. The application is available October 1st each year. <https://cssprofile.collegeboard.org/>

Merit Scholarships – From Colleges/Universities You're Applying To

Merit scholarships are often related to academic performance, but can also be given to a candidate displaying artistic or athletic excellence, or even a combination of both. While all academic scholarships are merit scholarships, not all merit scholarships are academic.

Often all you have to do is apply to the school to be considered for merit scholarships to attend that school. You'll automatically be considered (typically GPA, test scores on ACT/SAT, and/or class rank) once you submit your college application. However, some schools do require an additional application. Do your research to find out and also be mindful of deadlines!

Also, make sure you check the college/university website directly for any additional scholarships they offer that require a separate application and deadline. Many schools advertise additional scholarships in this way.

Website Scholarships – From Colleges/Universities You're Applying To

You should carefully research the website from all schools you are applying to. They may have additional scholarships listed that you can apply for separately.

Local Scholarships – Nordonia Students Only

Local scholarships will be introduced to all current Nordonia High School seniors during the month of February. Students will be able to access the application materials online and must submit all printed copies to the Guidance Office. More information and deadlines to come.

Senior Newsletter at NHS

Any scholarship opportunities that are sent our way will be posted each month in the newsletter.

Scholarship/Financial Aid Resources - Continued

Private Scholarship Resources

Students may also find it valuable to research any private scholarships that may be available to them through organizations/agencies that they or their parents are members. The websites listed below can also be valuable tools for searching for private scholarships that they may be eligible to receive. Students should follow all directions and deadlines to apply for each scholarship that they find offered privately outside of schools. Many of these websites allow you to enter information about yourself and then pair you with scholarships that you may be eligible to receive, which can be a huge time saver as you go through this process.
