

Red Oak Behavioral Health, Mental Health

Support Services

Red Oak Behavioral Health has offered their services to our families who may need tele-mental health services during the pandemic. They also have offered to work with any families who have financial limitations or are uninsured. No one will be turned away from services due to financial concerns. You can reach out to Red Oak directly to initiate services or you can contact your school counselor to connect you. Please view these documents to guide you through the process.

Your contact at Red Oak is arobson@redoakbh.org
